

Fall Overboard Prevention Subcommittee

AWO Interregional Safety
Committee

Committee Members

- Lora Ferraro – Hile Group
- Jo Ann Salyers – Salyers Solutions
- Steve Richards – BP Shipping (USA)
 - Jim Fletcher – Team Services
- Tim Sizemore – AEP River Operations
- Jim Smith – Magnolia Marine Transport

Our Goal

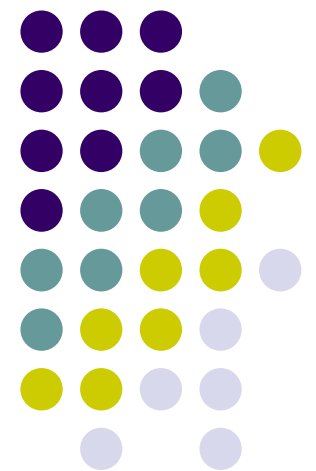

By learning from the past, marine professionals can use this knowledge to recognize key factors, and potentially prevent another accident from occurring under similar circumstances, or for similar reasons, in the future.

Mission Statement

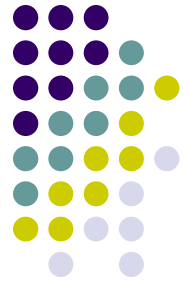

The Fall Overboard Committee—through collaboration, challenging old thinking, and advocacy—will work to raise awareness, of falls overboard with professional mariners and industry leaders with the ultimate goal of keeping each person safe and injury free.

What's been done in AWO?

Fall Overboard Prevention Lesson Plans

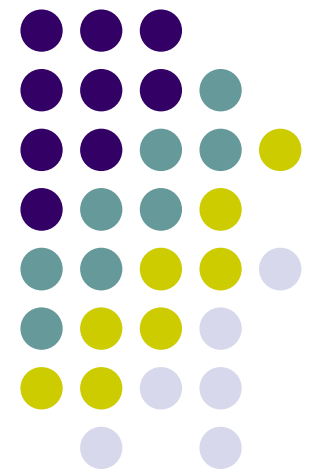

The following is a list of AWO lesson plans, go to links below to download.

Fall Overboard Prevention:

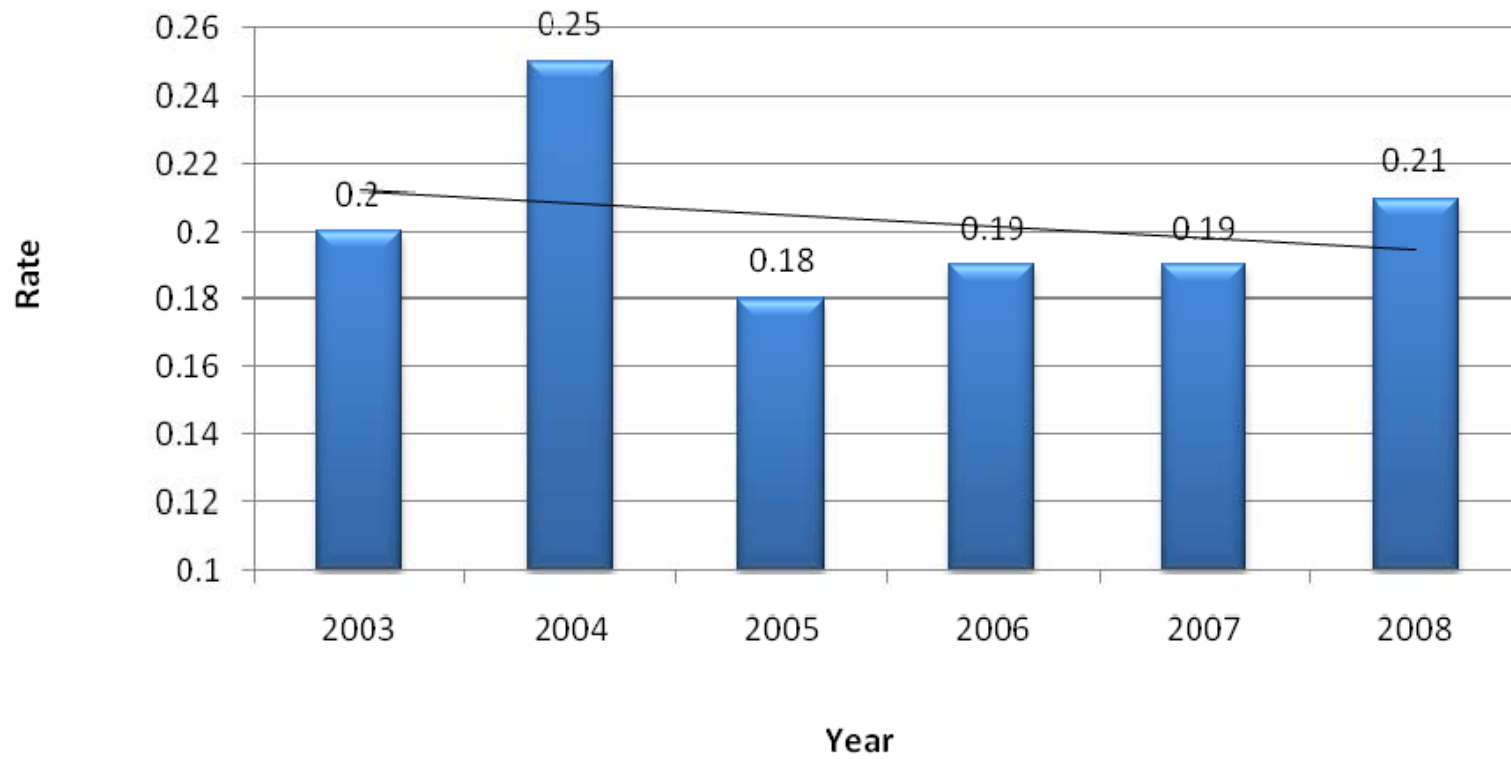

- [Fall Overboard Prevention Lesson Plan](#) - (6/02)
- [L.P. for Slip, Trip and Fall Prevention](#) - (11/02)
- [L.P. for Working in Darkness](#) - (3/03)
- [L.P. for Slip, Trip and Fall Prevention - Beyond the Basics](#) - (7/05)
- [L.P. for Ladder Safety](#) - (11/05)
- [L.P. for Fall Overboard Prevention: Making/Breaking Tow](#) - (3/06)
- http://www.americanwaterways.com/commitment_safety/safety_tools.html

**Are these Lesson Plans
getting us the results
(i.e. Reduction in
FOB's)?**

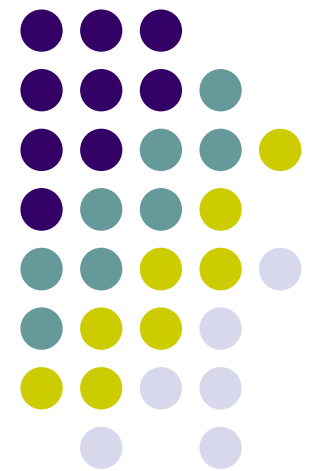

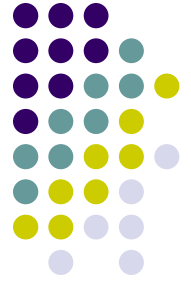

Fall Overboard Rates

FOB Questionnaire Form

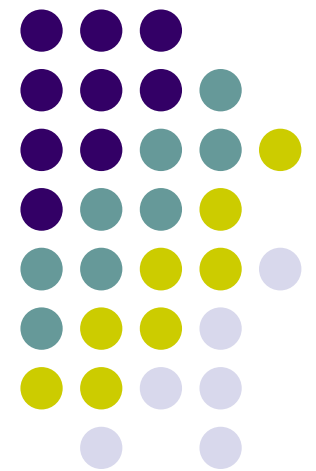

How to Submit Your Fall Overboard Statistics

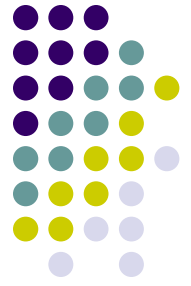

- If you have had a Fall Overboard incident during the quarterly reporting period, you will need to complete a FOB questionnaire.
- This questionnaire will be sent in along with your quarterly submission stats to the Hile Group.
- A job aid will be created to aid you in filling out this questionnaire.
- Hile group will send you a reminder with a form attached if they see your company reported a FOB for the quarter and have not received a FOB form.

What can industry eventually do with this data?

Why We Should Do This

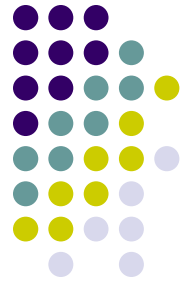

- The information will identify some trends and/or causal factors.
- These trends and/or causal factors will start to emerge, we can focus efforts on each of them. (i.e. Lesson Plans, Safety Initiatives etc.)
- It is very important to perform a thorough investigation on the front end.

Questions

- What more can the Safety Committee do to promote Fall Overboard Prevention Awareness?

Committee Recommendation

Next Steps: We request that Fall Overboard Prevention Training be mandatory for all crew members as part of Human Factors section of RCP.
