

Standards Board Approved Questions and Answers for RCP Critical Equipment Requirements

Question

Does the company's SMS contain written procedures to identify critical equipment and systems, the sudden failure of which may place the towing vessel, towing vessel crew or environment into a hazardous situation, or a list of critical or essential equipment and systems? (RCP II-B-6)

RCP Expectation

The company must have a documented procedure to identify critical or essential equipment and systems, or have such equipment and systems listed.
